March 1865 – 26 February 1887) was the first Indian female doctor of western medicine along with Kadambini Ganguly. She was the first woman from the erstwhile Bombay presidency of British India to study and graduate with a two-year degree in western medicine in the United States. In late 1886, Anandibai returned to India and was welcomed with great admiration and celebration for her achievements. Her return was seen as a moment of national pride, especially for advocates of women's education and healthcare reform. Soon after, she was appointed as the physician-in-charge the female ward of the local Albert Edward Hospital.
